

Best Careline Identity took hands with MyLifeline to offer you peace of mind

With our watch device and identification plate, we will be able to locate and identify your loved ones in times of crisis

Our device is a wearable panic button that can be worn on your wrist. The device has a single button, when pressed and held for 3 seconds will send a panic signal. The Watch will also show Time, Date, Signal strength, GPS type and Battery level.

Features:

1. Wrist Watch
2. Two-way voice
3. Estimated GPS Location
4. 24/7 Monitoring / SMS to 5 contacts
5. 1-3 day battery life under normal cellular network conditions with magnetic charger
6. No cellphone needed
7. ICASA approved
8. Display show time, date, signal strength, GPPS type, and battery level.
9. Show address book.
10. Steele plate with the phrase "CALL FOR HELP", your unique code & our emergency number
